

DEAR READERS,

I'd like to take this time to acknowledge the members who have been behind Right of Way Magazine. The Editorial Advisory Board has been crucial to guiding the editor by providing content suggestions to article submissions over the course of many years. They are the silent pillars behind the success of the publication, and for that, the past editors and myself are grateful.

Recently, a decision was made to expand the Editorial Advisory Board to encompass all right of way disciplines. This would allow the magazine to offer more variety in its contents. The new Editorial Advisory Board includes one representative each from the International Governing Council, the International Executive Committee and the International Advisory Council. In addition, the Board will include a representative from each of the International Industry Committees — these individuals will serve as the subject matter expert of their committee.

Though the new Editorial Advisory Board includes familiar faces from the former Board, I'd like to thank the original Editorial Advisory Board for their valuable input and advice. Their work has been memorialized in Right of Way Magazine, and the contributions they have made have been appreciated by many.

Thank you to the original Editorial Advisory Board for their outstanding editorial services over the years:
